COLLECTION

SPORTY REFINED ELEGANCE
THE NEW MASERATI FALL-WINTER 2018/19 COLLECTION IS HERE

Maserati unveils its new **Fall – Winter 2018/19** watch collections.

Unmistakable watches, characterized by attentive research in materials, finishes and workmanship that enhance the sportiness and typical elegance of the Trident House.

Chronographs, 3H and skeleton automatic watches are a feature of the male collections proposed with solid bracelets in stainless steel, Milanese mesh or sophisticated fabric or leather straps. The contrasting elements, a sign of sportiness and decisive personality, stand out.

The **Gentleman** collection embodies a refined style. The models are designed for a sophisticated man who is attentive to details. Trendy, but with a classic soul, the watches are inspired by the patterns and materials of men's tailoring.

The models of the new **Traguardo** collection are also to note, chronographs characterised by style details and colour matching which enhance the typical sporty touch of Maserati cars.

Femininity and elegance are the buzzwords of the **Epoca Lady** collection, which the brand dedicates to the Maserati woman.

The models are characterised by a refined style, embellished by ultra chic materials like mother-of-pearl and rose gold finishes.

GENTLEMAN

Maserati dedicates the GENTLEMAN collection to a sophisticated man. A modern dandy who makes watches a must-have accessory to define his style.

Classic timepiece with a refined design, where vertical microworkmanship on the dials and tailoring details enhance the care in the features.

These models draw inspiration from the male wardrobe, transferring the **chevron pattern** of the clothes to the fabric straps and mesh bands.

The movements proposed, embraced by the 43 mm case, are skeleton automatic, chronographs or time only.

Super modern best describes the skeleton automatic model: grey dial with vertical line texture, rose gold details and chevron mesh bracelet.

TRAGUARDO

Six new chronographs for the TRAGUARDO collection. Timepiece with a sporty touch, highlighted by special colour matchings, the knurling detail on the dial and the speedometer bezel. The large 45 mm case matches the Milanese mesh bands for a total look in the black, gun and silver finishes.

The in-line counters are a **must-have**, a clear reference to the onboard equipment of Maserati cars.

Super sporty: the model with edge-to-edge seam leather strap and contrasting red details.

EPOCA LADY

Simple and elegant design for the new Lady models of the EPOCA collection. Feminine and sinuous style watches, inspired by the iconic Maserati 3500 GT of 1957. The 34 mm case encloses precious dials with mother-of-pearl detail and matches mesh bands.

Must have: the model with case and rose gold PVD mesh band matched with the refined silver dial with mother-of-pearl detail at the centre.
