## THE CREATOR

For more than 20 years, HERVÉ GAMBS, artistic director and fabric floral design initiator, imagines sensory experiences for unconventional luxury seekers. Free-thinker designer, his approach is meticulous and instinctive. He tries various olfactive expression ways and succeeds in giving a new refreshing meaning to the French traditional Haute Perfumery. He freely dares intimacy and sensuality in fragrances as a mirror of his passion for authenticity. This contrast between raw and extreme sophistication soon became his trademark.

“ I am quite convinced that the essence of Beauty is hidden inside the heart of Nature. ”

*Hervé Gambs*

## THE CREATIVE PROCESS

HERVÉ GAMBS is not a perfumer but a creator that instinctively uses olfactive material as an Art. Far from standard perfumes, his creations are unique and full of true. Each one is a discovery of selected raw ingredients from nature, a focus on asperities and unbelievable subtleties that enhance their singularity and beauty. To magnify his compositions, HERVÉ GAMBS has chosen to go slowly and extend some maceration process to give time to all components to melt quietly and sublimate the heart of each perfume, giving more depth and a remarkable long lasting.

“ A perfume comes from the encounter between the raw material and the uncompromising personality of a creator. ”

*Hervé Gambs*
