

I.N.O.X. MECHANICAL

RESILIENT, MODERN, TIME-RELEVANT

FINALLY I.N.O.X. MECHANICAL HAS LANDED

Since the launch of the first I.N.O.X. in 2014, its mechanical version has been eagerly anticipated. This exceptional collection needed a robust calibre addition. Due to the delicate nature of automatic movements, several R&D were necessary to bring this model into life.

At first sight, nothing distinguishes the quartz model from its mechanical version, with identical style, proportions and features, three hands and date. However a transparent back case show the mechanism behind it. The guilloche dial, in the style of the Swiss officer's Knife is what makes the design stand out. I.N.O.X. signature bezel has been coated to make it even more resistant to wear and tear keeping the shine intact for longer.

Expected novelties, unexpected innovation with a unique, first of its kind, wooden strap strong and durable crafted onto a leather base, audacity in pushing the boundaries. This perfect innovation that fits well with Victorinox's environmental commitments.

I.N.O.X. MECHANICAL: 241834, 241835, 241836, 241837

SWISS MADE

CASE

43 mm stainless steel case (316L) with anti-scratch treatment on the bezel

AVAILABLE

October 2018

ABOUT VICTORINOX SWISS ARMY

Victorinox Swiss Army has been producing precision instruments for over 25 years. These timepieces, manufactured in the new Victorinox watchmaking competence center in Delémont, in the Swiss Jura, combine timelessness, reliability and functionality. Thanks to the brand's uncompromising commitment to quality and attention to detail, Victorinox Swiss Army watches perpetuate the vision introduced by its founder over a century ago and establish themselves as objects capable of meeting the most demanding requirements.

ABOUT THE VICTORINOX WATCH COMPETENCE CENTER

Located in the Swiss Jura, the Victorinox Watch Competence Center engineers, manufactures and assembles watches and watch components. The Center produces for Victorinox's own brands – Victorinox Swiss Army and Wenger – as well as for selected clients. For more than 130 years Victorinox has been developing its expertise in stainless steel, also known as inox steel, constantly improving product quality, process efficiency and cost effectiveness. "Swiss Made" is therefore more than just a sign of quality – it is our promise to never stop improving.

ABOUT VICTORINOX

Victorinox produces and sells unique, high quality products worldwide which are of practical use in differing areas of life: Swiss Army Knives, Cutlery, Watches, Travel Gear, Apparel and Fragrances. The head office of the company is in Ibach, Schwyz, in the heart of Switzerland. This is where the founder of the company Karl Elsener first set up his cutler's business in 1884 and, a few years later, designed the legendary «Original Swiss Army Knife».
