

EMILE CHOURIET  
GENEVE

# Mr Right

# MR RIGHT

Each accessory that you have carefully chosen makes up a part of your personality and enhances your life. Emile Chouriet recognizes your confidence and grace. Our newest launch, Mr. Right, is looking forward to accompanying your every moment - just like he does.

Mr. Right breaks the routine with a clean-cut square case that responds to the stepped square area around the small second hand and square buckle, reflecting the willful nature of the watch. The confidence of modern women is channeled through the fingertips of the watchmaker. An ingeniously designed wing-patterned lug connects to a textured leather strap that is paired with a man-made zircon-inlaid buckle that sparkles with feminine elegance and charm. The sides of the watch case feature an innovative fluted design. The upper and lower layers of the watch case are sandblasted and polished to create a rich sense of depth. The watchmaker's rigorous attention to detail undoubtedly increases the difficulty of watchmaking while also enhancing the visual aesthetic of the watch. The watch shows strength and grace, just as a woman displays both confidence and elegance.

Modern women have broken the shackles of gender. They are confident and professional while also retaining gracefulness. Mr. Right is not an addition to their lives but a companion – the icing on the cake. Mr. Right knows you even better than he does.
