DIVINSKIN

Bi-Complexe Age Protect

NEW*

THE URBAN YOUTH PROTECTION SHIELD

The **DIVINSKIN** line offers a global solution for women from 30 and over looking for effective products to protect their skin from the first signs of ageing and slow down the skin ageing process.

Méthode Jeanne Piaubert Research launches two new products to complete its beauty routine: the **Rejuvenating Anti-Pollution Serum** and the **Rejuvenating Sleeping Mask**.

YOUTHFULNESS UNDER CONTROL.

DIVINSKIN works like an actual shield to protect the skin's rejuvenating properties with a powerful line active ingredient which restores the primary skin functions: **Age Protect Bi-Complex** has a global anti-ageing effect. It increases the proliferation of keratinocytes in the epidermis for better hydrated and protected skin. It stimulates the expression of collagen at the dermo-epidermal junction to improve cell communication and skin cohesion. It boosts fibroblast numbers and activity in the dermis to increase collagen production. Finally, the **Hyaluronic Acid** creates a protective surface film, keeping the skin well-moisturised.

KEEP YOUR SKIN YOUTHFUL WITH AN ANTI-STRESS SLEEPING MASK

Exposed to daily external aggressions, the skin produces the stress hormone cortisol which lowers our immunity and may lead to eczema, acne, inflammation and redness, dark circles, hyperpigmentation, loss of antioxidant faculties or low energy levels.

The **DIVINSKIN Rejuvenating Sleeping Mask** protects the skin against ageing by eliminating the build-up of stress through the day with the line active ingredient, **Age Protect Bi-Complex**, and its specific high-performing active ingredient, **OXYDREAM**.

Plant-based, it combats skin stress by regulating cortisol production, stimulating β -Endorphin and activating genes and anti-stress proteins on fibroblasts and keratinocytes.

From the morning, the signs of fatigue and stress are noticeably reduced, the complexion is even and glowing and facial features are smoothed. The skin is soothed, hydrated and radiant with youth and beauty.

REJUVENATING SLEEPING MASK

Apply a thin layer twice a week on a perfectly cleaned skin. It gently soaks into the skin for an instant sense of comfort and well-being. Apply the mask as an evening treatment or leave it all night long for a beautiful result with a rested skin, ready to take on the day.

AFTER A MONTH*

Comfortable skin	96%
More beautiful skin	93%
Hydrated skin	89%
Rested skin	86%

* Satisfaction test carried out on 83 women after one month of use.

PROTECT YOUR SKIN WITH AN ANTI-POLLUTION SHIELD ALL DAY LONG

Pollution and UV rays attack the skin daily, compromising its natural defence capacities. It then becomes weak and the victim of premature, accelerated ageing. The **DIVINSKIN Rejuvenating Anti-Pollution Serum** is your best skin protection ally with its line active ingredient, **Age Protect Bi-Complex**, and its specific triple-action anti-pollution active ingredient.

POLLUSTOP™: This polysaccharide forms a protective matrix at the surface of the skin which works like a shield to prevent air and household pollutants and UV rays from penetrating the skin, thus minimising damage. In terms of air pollution, it reduces carbon particle build-up on the skin and protects against oxidation and mitochondrial toxicity while forming a barrier against heavy metals. It combats household pollution by shielding the skin from the toxic sulphates used in cleaning and personal care products. Finally, it reduces the inflammation caused by UV rays.

Its innovative formulation keeps the skin youthful. Fully protected, the skin is replenished and radiantly beautiful.

Applied every morning before the day cream to the whole face and neck, the **DIVINSKIN Rejuvenating Anti-Pollution Serum** produces an instant sense of comfort and protects the skin all day long. With its sheer, fluid, pale pink texture, the skin is noticeably younger and more beautiful for a smooth, hydrated, radiant result.

AFTER A MONTH**

Comfortable skin	89%
Hydrated skin	86%
Skin protected from aggressions	80%
More beautiful skin	80%

** Satisfaction test carried out on 71 women after one month of use.
