ABOUT GOLDKENN®

In 1980, company founders Steve Goldstein and Christian Belce Kennedy merged elements of their family names to create this unique brand. The founders struck gold when they combined two quintessential Swiss symbols, banks and chocolate, to form the now world-famous GOLDKENN Goldbar®. GOLDKENN gained recognition through its unique spectrum of innovative, high quality Swiss chocolates sold through a new market niche, that of Duty Free. GOLDKENN later became pioneers in airport retail, before taking the proposition to new heights via in-flight and cruise liner sales. Today, from their Neuchâtel base, GOLDKENN continues to create original chocolate confections, the hallmarks of which are their innovative appeal and a respect for Switzerland's longstanding heritage of exquisite chocolate.
