

Traveller's Tales

Travel Retail Exclusive

We are more than a Company. The East India Company changed the world's tastes, Customs and thinking with undiscovered, vibrant treasures. It created new communities and trading places, which shaped countries and commercial routes.

Stories abound of exotic distant shores and bustling ports. Of explorers, adventurers and swashbucklers. Of the amazing aromas, delicate spices, and the soft gentle folds of calicos and silks.

Today we build on this legacy, creating a new chapter for a modern world. With the same explorative, adventurous spirit, we seek to discover the best the world has to offer.

Imagine a gift that isn't just a gift. That's anything but predictable. That's scented with exotic ingredients and spices. That tells a story with every mouthful. The explorers from The East India Company brought these gifts back from their adventures.

Now, with our carefully curated TRAVELLER'S TALES tea, you can give that unique taste of adventure to the people you care about most.
