## MAISON DORIN

Maison Dorin is one of the oldest perfume and make-up brand in France and worldwide. The story began with a quest for the embellishment of women and men beauty products.

In 1780 Maison Dorin became official purveyor to the Royal Court of Versailles, through the influence of Marie-Antoinette and thanks to its powders and blush quality.

Today, Dorin is part of the High Perfumery market, attempting to preserve and to perpetuate its story, through its scents and its new fragrances collection.

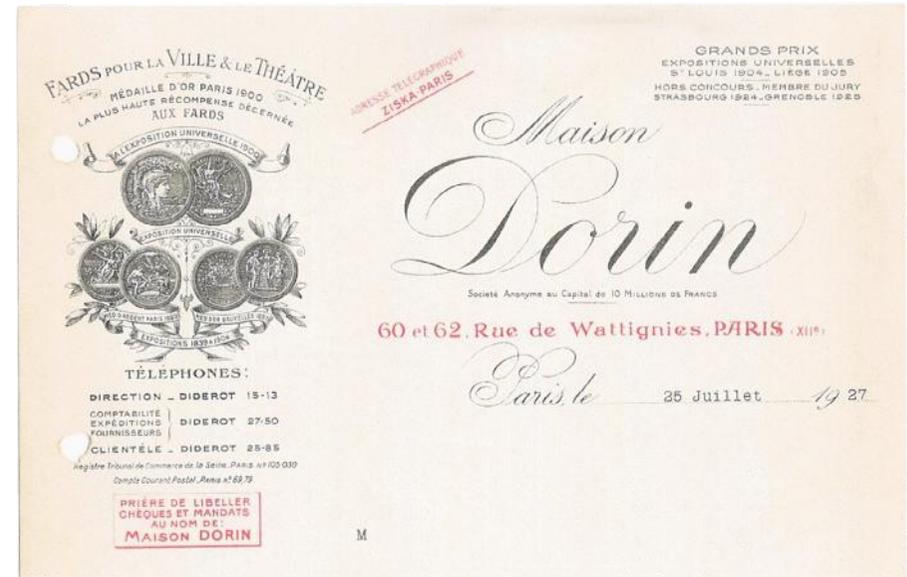

## A MARK OF DISTINCTION

Dorin is the proud holder of highly prized marks of recognition.

Its first catalogue was edited in 1814 and the products were successfully presented during the International Exhibitions of Paris (1839, 1855, 1867, 1889 and 1900), Moscow (1891), Chicago (1893) and Brussels (1897). Dorin was awarded the Golden Medal by the Paris International Exhibition Jury in 1900.

Since then, the brand was granted the highest award at each International Exhibition (Saint-Louis, 1904 and Liège, 1905) : the Grand Prix of the category « Blush for the City and Theater ».

Dorin's supreme expertise and recognition became so absolute that the brand couldn't compete anymore and was appointed Member of the Jury for the Strasbourg 1924 and Grenoble 1925 exhibitions.

## Maison Dorin heritage

Drawing inspiration straight from the very history of the House of Dorin, this new collection harks back to the heady end of the 18th century when the firm was officially recognised as a supplier of face powders and foundation make up to the royal court. The firm pledged always to remain true to the needs of its royal clients, an ethos that has guided it down through the ages.

This range of five olfactory sensations was devised to recreate a majestic and intimate experience, each retelling a different story about the history of the firm. Each fragrance is available as both a scent and a scented candle.

Beautiful and prestigious decorative objects, these two incarnations are perfect as gifts, either for other people or for oneself. Take a beautiful olfactory journey through the golden age of Palace of Versailles.

As expect from Maison Dorin creations, this collection is manufactured in France from high-quality natural materials, each bearing witness to our know-how, authenticity and faultless quality control.

## PACKAGING

The packaging also draws its inspiration from the history of the house of Dorin. The textured cream paper, the embossed card and the gilding give an impression of purity and richness that is the signature of the collection.

These round candles are packaged in a way reminiscent of the powder boxes that are the very emblem of the House of Dorin.

# PARFUM

The five scents composing the collection are available as 100ml and 200ml sprays, presented in the brand's historical white enamelled flask, with a Maison Dorin gilded signature as a logo.

# SCENTED WAX

Made in France natural wax • 200gr • Burn-time: 45 hours.

## MASTERPIECE

Every Dorin scented candle is poured in a mat white glass jar, soft and pleasant to touch, and adorned with a coat of arms inspired by a stone medallion engraved with the words “Dorin, Supplier to the Court 1780” located at the company’s former workshop in Paris. The gilded metal snuffer bearing an embossed Dorin logo both sublimates the candle and preserves its scent.

The minimalistic simplicity of the white and the gold theme of the collection places the scent centre-stage; buyers are not influenced by the packaging when choosing their fragrance.

## DAZZLING QUALITY

Our scented wax products are guaranteed to burn fluidly and to exude their scent in the best possible way. Our waxes are made in France from a mineral wax that conforms to REACH standards, enabling excellent scent production and good temperature resistance.

Manufactured and packaged in France.
